

How the trials are divided

the only material a condition may use

scored, never touched

identical in all conditions

stratified, seeded per subject

What each condition does with C_s

	source training	the two procedures align on C_s	supervise on C_s	source selection	scored on T_s
SRC uses neither	●	○	○	●	●
EA alignment only	●	●	○	●	●
SUP supervision only	●	○	●	●	●
EA+SUP both procedures	●	●	●	●	●
